

Screen Gestures

https://wiki.termux.com/wiki/User_Interface  has much more than Android gestures.

Long tap pops up the context menu.

What does short tap do in Termux?

Nothing; It gets passed through to the terminal.

Where are these screen gestures

in <https://github.com/termux/termux-app>  ?

<https://github.com/termux/termux-app/blob/master/terminal-view/src/main/java/com/termux/view/TerminalView.java#L80>
